

STEP  
1

Start with the scarf draped around your neck, with one side **longer** than the other.

STEP  
2

Take the **long side** of the scarf and loosely wrap it around your neck.

STEP  
3

Make sure the **loop around your neck is loose** and that there is space between the scarf and your neck.

STEP  
4

Pull the **short side** of the scarf up **through the loop** and hold it in your hand.

STEP  
5

Throw the short side of the scarf **over the front of the loop**. The short side should now create two holes, **1** between it and your neck and **2** between it and your hand.

STEP  
6

Pull the **long side** of the scarf up through **1**, the hole between the scarf and your neck and hold it in your hand.

STEP  
7

Pull the long side of the scarf **up and over** the short side (which is resting on top of the loop).

STEP  
8

Pull the long side of the scarf down through **2**, the hole **between the short side and the loop**.

STEP  
9

Pull the long side of the scarf tight. Make final adjustments and enjoy your pretzel scarf.
